## PROFILE

---

I am a software engineering student seeking full-time position in the field of software development, where I can apply my knowledge and skills for continuous improvement. My main interest areas are blockchain technology and low level software development concepts (operating systems, compilers, assembler).

## EDUCATION

---

- **Stasys Šalkauskis gymnasium** Šiauliai, Lithuania  
*Secondary education* 2010 - 2015
- **Šiauliai 1st Music School** Šiauliai, Lithuania  
*Saxophone specialty* 2004 - 2011
- **Vilnius University Faculty of Mathematics and Informatics** Vilnius, Lithuania  
*Bachelor of Informatics* 2015 - 2016
- **Vilnius University Faculty of Mathematics and Informatics** Vilnius, Lithuania  
*Bachelor of Software engineering* 2016 - 2020

## EXPERIENCE

---

- **Devbridge Group** Vilnius, Lithuania  
*Software developer (Sourcery academy internship)* March 2018 - June 2018
  - **React:** React is JavaScript library that our team used to create front end for reception application.
  - **ASP.NET Core:** This is C# framework used to create application's back end. Our team used it to create API controllers for data operations.
  - **Entity framework:** It is C# object-relational mapping framework. Our team used it to develop Microsoft SQL Server database.
- **Tieto** Vilnius, Lithuania  
*Software developer (Month with IT internship)* Aug 2018 - Sep 2018
  - **React native:** It is a framework that we used to create front end for Scooter sharing Android application. We use Typescript to develop application.
  - **ASP.NET Core:** This is C# framework used to create application's back end. Our team used it to create API controllers for data operations.
  - **Entity framework:** It is C# object-relational mapping framework. Our team used it to develop Microsoft SQL Server database.

## PROJECTS

---

- **Operating system model:** I co-created model of simple operating system written in C# (<https://github.com/macro161/OS>)
- **Reception desk system:** As a part of Devbridge internship I helped creating reception desk system which helps to inform office staff about people coming to office
- **Scooter sharing system:** As a part of Tieto internship I helped creating mobile application for scooter sharing inside company. System provided ability to track and share scooters in any of Tieto offices worldwide.
- **EmailLife:** In development web application which allows to combine social media, chatting and emails under one application. EmailLife will let user to create any number of email account and manage them easily. (<https://github.com/macro161/EmailLife>)

## PROGRAMMING SKILLS

---

- **Languages:** C#, Java, Python, Javascript, Typescript, JSON, HTML, CSS, SQL, C++, C, Assembly, JSON, HTML, CSS, LaTeX
- **Technologies:** ASP.NET Core, Entity framework, React, React native, Microsoft SQL Server, Git, Spring, Java EE

## LANGUAGES

---

- **Lithuanian:** Native speaker
- **English:** Proficient in spoken and written English
- **Russian:** Basic communication skills

## ACHIEVEMENTS

---

- **Danske Bank marathon 2016:** I ran 3 kilometers in 17 minutes and 15 seconds
- **Midi CS:GO Lan party 2017:** I participated in Counter-Strike: Global Offensive Lan party
- **Lindyhop winter contest 2016:** In 2016 me and my dancing team won second place in local lindyhop dancing contest

## OTHER

---

- **Volunteer in "Lietuvos Atgaja" summer camp:** Every summer since 2017 I spend two weeks in a summer camp called "Lietuvos Atgaja", volunteering as camp counselor.
- **Lindyhop dancer:** I'm an avid dancer, being a member of "lindyhop.lt" club since 2016.
- **Drivers license:** Category B drivers license from 2016.
- **Beer brewing experiance:** I am brewing beer since 2016. My biggest oreder was to brew 500 liters of variuos types of beer for underground music festival „Sound in the vacuume”
- **Chess:** My [www.lichess.com](http://www.lichess.com) elo rating is 1300 which put me in the middle of leaderboard.
