PROFILE

I am a software engineering student seeking full-time position in thefield of software development, where I can apply my knowledge and skills for continuous improvement. My main intrest areas are blockchain technology and low level software development concepts(operating systems, compilers, assembler).

EDUCATION

- **Stasys Šalkauskis gymnasium**   Šiauliai, Lithuania
  Secondary education   *2010 - 2015*

- **Šiauliai 1st Music School**   Šiauliai, Lithuania
  Saxophone specialty   *2004 - 2011*

- **Vilnius University Faculty of Mathematics and Informatics**   Vilnius, Lithuania
  Bachelor of Informatics   *2015 - 2016*

- **Vilnius University Faculty of Mathematics and Informatics**   Vilnius, Lithuania
  Bachelor of Software engineering   *2016 - 2020*

EXPERIENCE

- **Devbridge Group**   Vilnius, Lithuania
  Software developer (Sourcery academy internship)   *March 2018 - June 2018*
  - **React**: React is JavaScript library that our team used to create front end for reception application.
  - **ASP.NET Core**: This is C# framework used to create application's back end. Our team used it to create API controllers for data operations.
  - **Entity framework**: It is C# object-relational mapping framework. Our team used it to develop Microsoft SQL Server database.

- **Tieto**   Vilnius, Lithuania
  Software developer (Month with IT internship)   *Aug 2018 - Sep 2018*
  - **React native**: It is a framework that we used to create front end for Scooter sharing Android application. We use Typescript to develop application.
  - **ASP.NET Core**: This is C# framework used to create application's back end. Our team used it to create API controllers for data operations.
  - **Entity framework**: It is C# object-relational mapping framework. Our team used it to develop Microsoft SQL Server database.

PROJECTS

- **Operating system model**: I co-created model of simple operating system writen in C# (https://github.com/macro161/OS)

- **Reception desk system**: As a part of Devbridge internship I helped creating deception desk system which helps to inform office staff about people coming to offfice

- **Scooter sharing system**:As a part of Tieto internship I helped creating mobile application for scooter sharing inside company. System provided ability to track and share scooters in any of Tieto offices worldwide.

- **EmaiLife**: In development web application which allows to combine social media, chating and emails under one application. EmaiLife will let user to create any number of email account and manage them easily.(https://github.com/macro161/EmaiLife)

Programming Skills

- **Languages**: C#, Java, Python, Javascript, Typescript, JSON, HTML, CSS, SQL, C++, C, Assembly, JSON, HTML, CSS, LaTeX

- **Technologies**: ASP.NET Core, Entity framework, React, React native, Microsoft SQL Server, Git, Spring, Java EE

Languages

- **Lithuanian**: Native speaker

- **English**: Proficient in spoken and written English

- **Russian**: Basic communication skills

Achievements

- **Danske Bank marathon 2016**: I ran 3 kilometers in 17 minutes and 15 seconds

- **Midi CS:GO Lan party 2017**: I participated in Counter-Strike: Global Offensive Lan party

- **Lindyhop winter contest 2016**: In 2016 me and my dancing team won second place in local lindyhop dancing contest

- **Gymnasium class senior**: I was elected as a class senior in school

- **University group senior**: I was elected as a group senior in university

Other

- **Volunteer in "Lietuvos Atgaja" summer camp**: Every summer since 2017 I spend two weeks in a summer camp called "Lietuvos Atgaja", volunteering as camp counselor.
- **Lindyhop dancer**: I'm an avid dancer, being a member of "lindyhop.lt" club since 2016.
- **Drivers license**: Category B drivers license from 2016.
- **Beer brewing experiance**: I am brewing beer since 2016. My biggest oreder was to brew 500 liters of variuos types of beer for underground music festival „Sound in the vacuume"
- **Chess**: My www.lichess.com elo rating is 1300 which put me in the middle of leaderboard.
